Description

The CFX Manager API Examples Kit is a Microsoft Visual Studio 2010 Solution written in C#, and requires .Net Framework 4.0. To open the solution, open **CFXManagerAPI_Examples\CFXManagerAPI_Examples.sln** from Visual Studio 2010 or higher. It includes source code libraries implementing an API client, a middleware wrapper presenting a simplified API interface to consumer applications, and two fully functional demonstration applications.

A complete description of the CFX Manager API Examples Kit can be found in the CFX Manager API Reference Guide, which is included as part of the CFX Manager API distribution package.

CFX Manager Compatibility

The CFX Manager API Examples Kit is compatible with CFX Manager Version 3.1.1621 or higher. CFX Manager Version 3.1.1621 is a CFX Manager update available as part of the CFX Manager API distribution package, and as part of the CFX Automation System II product package.

Support

For help and technical advice, please contact the Bio-Rad Technical Support department. In the United States, the Technical Support department is open Monday-Friday, 5:00 AM-5:00 PM, Pacific time.
